Irenas Liste oder Das Geheimnis des Apfelbaums Tilar J. Mazzeo 2017-03-20 Ein Zeugnis von unglaublichem Mut: Was vermag ein einzelner Mensch gegen die Grauen einer ganzen Epoche auszurichten? Eine Menge, wie die wahre Geschichte Irena Sendlers zeigt: Warschau, 1942. Als Sozialarbeiterin hat die junge Polin Zugang zum hermetisch abgeriegelten Ghetto. Was niemand weiß: Sie geht von Tür zu Tür, um verzweifelten Eltern ihre Hilfe anzubieten und ihre Kinder vor der Deportation und dem sicheren Tod zu retten. Unter abenteuerlichsten Umständen schmuggelt Irena nach und nach über 2500 Kinder aus dem Ghetto – in Säcken, Kisten und Särgen, mit Schlafmitteln betäubt, durch Keller und Abwasserkanäle. Mit gefälschten Papieren gibt sie den Kindern eine neue Identität und verschafft ihnen in polnischen Familien, bei Freunden, in Waisenhäusern und Klöstern ein neues Zuhause. Die Namen der geretteten Kinder notiert sie und vergräbt die Liste unter einem Apfelbaum. Selbst als die Gestapo sie fasst und foltert, gibt sie ihr Geheimnis nicht preis und überlebt wie durch ein Wunder. Die Geschichte einer fast vergessenen Heldin – neu erzählt auf der Grundlage jahrelanger Recherchen und Interviews mit Überlebenden. Zutiefst berührend, spannend wie ein Roman und zugleich unglaublich inspirierend.

Cardano for the Masses John Greene 2022-07-04 *** Updated January 2023) *** Ada (ADA) is a native cryptocurrency that runs on Cardano, a third-generation, decentralized public blockchain that aims to protect user privacy, while remaining flexible for regulation. Cardano is spearheaded by Charles Hoskinson who began in crypto with his course Bitcoin or How I Learned to Stop Worrying and Love Crypto. He subsequently went on to be a co-founder of BitShares and Ethereum before co-founding Cardano in 2015. Cardano is named after Gerolamo Cardano, an influential mathematician in the Renaissance. The platform aims to solve three issues with traditional cryptocurrencies: Sustainability, Scalability & Interoperability. This book is mainly for Cardano newcomers. It does not go deep into the weeds of the technical research papers, nor explore concepts in great detail. The goal is to give a broad overview of Cardano with explainers from Everipedia and Charles Hoskinson quotes where relevant. "This is a super-impressive piece of work on #Cardano from John Greene. UNESCO und Internet Governance Florian Becker 2022-12-07 Wie leistet die UNESCO mit ihren Konzepten zur Informations- und Wissensgesellschaft einen Beitrag zur Internet Governance und ist dieses Handeln von völkerrechtlicher Relevanz? In der Abhandlung werden ausgewählte UNESCO-Instrumente aus menschenrechtlicher Sicht bewertet und anhand innovativer Ansätze zur rechtlichen Erfassung von Governance-Phänomenen beleuchtet. Dabei geht es auch um die Frage der Gewährleistung von Legitimation und Rechtsstaatlichkeit bei der Anwendung nicht rechtsverbindlicher und nicht rechtsförmiger Instrumente in der Internet Governance. Die Untersuchung ist im Kern völkerrechtlich ausgerichtet, jedoch wird sie in ihren konzeptionellen Grundlagen durch die Ansätze der Governance-Forschung ergänzt und bietet somit auch eine interdisziplinäre Sichtweise.

Ma vie en blog - II Gracieuse Robert 2021-05-10T00:00:00Z Ma vie a bien évolué depuis le 6 mars 2010. J'ai continué à tenir mon blog régulièrement, à ma grande surprise, vu qu'il devait être effacé après sa création. Il va bientôt fêter sa première année d'existence. Toujours diffusé en mode public, j'y partage toute notre histoire, à mes amis et moi. J'ai dû inventer d'autres noms pour les nouvelles personnes arrivées dans mon récit. J'y raconte tout de même une partie de leur vie, alors bon, autant les protéger un peu. Je ne pensais pas l'écrire aussi longtemps, mais y relater mon quotidien m'amuse. Il n'est pas toujours rose, quand on change radicalement de vie. Beaucoup de questionnements encore et toujours. Je suis fiancée, moi, qui jurais que celui qui me conduirait devant l'autel n'était pas né. Me voici en train de préparer un mariage dans deux pays différents. Mon futur mari ? Eh bien c'est un homme, alors il pense et il délègue. Comprendrez-vous comment j'ai changé d'avis ? Même ma copine n'a plus la même opinion sur le couple. Où va le monde ?

Internet Psychology Yair Amichai-Hamburger 2017-06-26 We can't imagine our lives without the Internet. It is the tool of our existence; without it we couldn't work, plan our social and leisure activities, and interact with friends. The Internet's influence on contemporary society extends across every aspect of our personal and professional lives, but how has this altered us in psychological terms? How are we to understand how the Internet can promote enormous amounts of caring and kindness to strangers and yet be the source of unremitting acts of terror? This book, grounded in the latest cutting-edge research, enhances our understanding of how we, and our children, behave online. It explores questions such as: Why does our self-control abandon us sometimes on the Internet? Why does the Internet create a separate realm of social and personal relationships? How does all that change us as people? Are youngsters really as exposed and threatened on the web as people think? **Internet Psychology: The Basics** is a vital and fascinating guide to the online world, drawing on classic theories of human behaviour to shed fresh light on this central facet of modern life. It argues that, even in an age of constant technological advancement, our understanding of the human psyche remains rooted in these well-established theories. Embracing both

positive and negative aspects of Internet use, this easy introduction to the subject will appeal to students and general readers alike.

Emerging Trends in ICT Security Diogo A.B. Fernandes 2013-11-06 Nowadays, cybersecurity makes headlines across the media and in companies, blogs, social networks, among other places. The Internet is a wild cyberspace, an arena for commercialization, consumerism, business, and leisure, to name a few activities. Networks, populations, and nations around the world, now interconnected through the Internet, rely on it for their daily lives. But some Internet users have learned to take advantage of vulnerable systems and of Internet technologies for their own good, sending out spam, phishing, data breaches, botnets, and other threats. An underground criminal network has emerged, creating complex malware kits for several purposes. "Hacktivism" has become a popular term with many supporters worldwide, but cyberwarfare is now on the rise, gaining more and more attention from nation-states. This chapter provides a quick overview of these topics, discussing them in a timely manner, referencing key events from the past while focusing on the present day.

Urban Resilience to the Climate Emergency Isabel Ruiz-Mallén 2022-09-30 This volume sheds light on urban resilience strategies in times of climate emergency and social and economic crisis by reflecting on related social vulnerabilities and inequalities within cities and showing the potential of participatory governance approaches for socio-environmental transformation. The book compiles critical research documenting the articulation of urban resilience strategies dealing with climatic changes, as well as the understanding of the unexpected implications of top-down resilience plans to address the impacts of climate change in cities, especially on the most vulnerable urban populations, and the transformative capacities of bottom-up and socially innovative resilience strategies. The book especially focuses on co-produced and grassroots transformative processes that are concerned with social equity in urban planning for climate change. Although several publications cover the topic of urban resilience, this book provides a more nuanced exploration of urban climate governance and citizen engagement in urban climate resilience policies through the lenses of political ecology, environmental justice and co-production. In this regard, the volume moves beyond the approach of multilevel urban climate governance by critically addressing the unexpected impacts of top-down strategies of urban resilience with the goal of expanding the reflection on citizen engagement. The book also explores the emerging possibilities behind the co-production of urban resilience as well as the critical role of grassroots and citizens in promoting such alternative strategies. While the primary target audience is scholars from different disciplines (e.g. geography, urban studies, planning, political ecology, architecture, urban sociology, environmental studies) focusing on urban resilience, the editors also aim to reach urban resilience practitioners from local, national and international organisations as well as environmental grassroots and climate activists.

Museums of Communism Stephen M. Norris 2020-11-03 How did communities come to terms with the collapse of communism? In order to guide the wider narrative, many former communist countries constructed museums dedicated to chronicling their experiences. *Museums of Communism* explores the complicated intersection of history, commemoration, and victimization made evident in these museums constructed after 1991. While contributors from a diverse range of fields explore various museums and include nearly 90 photographs, a common denominator emerges: rather than focusing on artifacts and historical documents, these museums often privilege memories and stories. In doing so, the museums shift attention from experiences of guilt or collaboration to narratives of shared victimization under communist rule. As editor Stephen M. Norris demonstrates, these museums are often problematic at best and revisionist at worst. From occupation museums in the Baltic States to memorial museums in Ukraine, former secret police prisons in Romania, and nostalgic museums of everyday life in Russia, the sites considered offer new ways of understanding the challenges of separating memory and myth.

Behold a Pale Farce Bill Blunden 2014-04-01 This book presents a data-driven message that exposes the cyberwar media campaign being directed by the Pentagon and its patronage networks. By demonstrating that the American public is being coerced by a threat that has been blown out of proportion—much like the run-up to the Gulf War or the global war on terror—this book discusses how the notion of cyberwar instills a crisis mentality that discourages formal risk assessment, making the public anxious and hence susceptible to ill-conceived solutions. With content that challenges conventional notions regarding cyber security, *Behold a Pale Farce* covers topics—including cybercrime; modern espionage; mass-surveillance systems; and the threats facing infrastructure targets such as the Federal Reserve, the stock exchange, and telecommunications—in a way that provides objective analysis rather than advocacy. This book is a must-read for anyone concerned with the recent emergence of Orwellian tools of mass interception that have developed under the guise of national security.

The World in a Grain Vince Beiser 2018-08-07 A finalist for the PEN/E. O. Wilson Literary Science Writing Award The gripping story of the most important overlooked commodity in the world—sand—and the crucial role it plays in our lives. After water and air, sand is the natural resource that we consume more than any other—even more than oil. Every concrete building and paved road on Earth, every

computer screen and silicon chip, is made from sand. From Egypt's pyramids to the Hubble telescope, from the world's tallest skyscraper to the sidewalk below it, from Chartres' stained-glass windows to your iPhone, sand shelters us, empowers us, engages us, and inspires us. It's the ingredient that makes possible our cities, our science, our lives—and our future. And, incredibly, we're running out of it. *The World in a Grain* is the compelling true story of the hugely important and diminishing natural resource that grows more essential every day, and of the people who mine it, sell it, build with it—and sometimes, even kill for it. It's also a provocative examination of the serious human and environmental costs incurred by our dependence on sand, which has received little public attention. Not all sand is created equal: Some of the easiest sand to get to is the least useful. Award-winning journalist Vince Beiser delves deep into this world, taking readers on a journey across the globe, from the United States to remote corners of India, China, and Dubai to explain why sand is so crucial to modern life. Along the way, readers encounter world-changing innovators, island-building entrepreneurs, desert fighters, and murderous sand pirates. The result is an entertaining and eye-opening work, one that is both unexpected and involving, rippling with fascinating detail and filled with surprising characters.

The Long Honduran Night Dana Frank 2018-11-27 This powerful narrative recounts the tumultuous time in Honduras that witnessed then-President Manuel Zelaya deposed by a coup in June 2009, told through first-person experiences and layered with deeper political analysis. It weaves together two perspectives; first, the broad picture of Honduras since the coup, including the coup itself, its continuation in two repressive regimes, and secondly, the evolving Honduran resistance movement, and a new, broad solidarity movement in the United States. Although it is full of terrible things, this not a horror story: this narrative directly counters mainstream media coverage that portrays Honduras as a pit of unrelenting awfulness, in which powerless sobbing mothers cry over bodies in the morgue. Rather, it's about sobering challenges and the inspiring collective strength with which people face them. Dana Frank is a professor of history at the University of California, Santa Cruz. She is the author of *Baneras: Women Transforming the Banana Unions of Latin America* from Haymarket Books. Since the 2009 military coup her articles about human rights and U.S. policy in Honduras have appeared in *The Nation*, *New York Times*, *Politico Magazine*, *Foreign Affairs.com*, *The Baffler*, *Los Angeles Times*, *Miami Herald*, and many other publications, and she has testified in both the US Congress and Canadian Parliament.
